Schedule No. ELDS-1

ELECTRIC LIGHTING DELIVERY SERVICE

APPLICABILITY: Applicable for lighting purposes including, but not limited to, streets, highways, alleys, parks, public grounds, or other publicly dedicated outdoor ways and places, post-top lighting, and yard lighting, where lights are operated from dusk to dawn throughout the year and are either metered or unmetered; and all other miscellaneous outdoor lighting installations throughout the Utility's entire Montana electric service area for Customers receiving electric supply under Electricity Supply Service or through a Contract with a Competitive Electric Supplier (Electric Supplier).

TYPE OF SERVICE: Sixty hertz, alternating current delivered at such voltage as may be available at the Utility's option.

RATES: Monthly Bill:

Electric Supply Charge: In Accordance with the Electricity Supply Service Tariff or with a Contract Between the Customer and an Electric Supplier.

PLUS:

Transmission Charges: In Accordance with the Electricity Supply Service Tariff if receiving supply under Electricity Supply Service; or In Accordance with Utility's FERC Approved Transmission Tariff if receiving supply from an Electric Supplier.

PLUS:

Delivery Service Charge (DSC): Customer specific DSC resulting from the sum of the following:

	Total Rate	Tax Portion of Rate	Rate Without Tax
Energy Charge (Monthly $/kWh):	$ 0.067109	$ 0.011627	$ 0.055482

PLUS:

Facilities Charge (Monthly $/Unit):

Cost Range	Total Unit Rate	Tax Portion of Rate	Unit Rate Without Tax
$ 200 - $ 399	$ 4.02	$ 0.89	$ 3.13
400 - 599	$ 8.53	$ 1.85	$ 6.68
600 - 799	$ 13.11	$ 2.71	$ 10.40
800 - 999	$ 15.76	$ 3.28	$ 12.48
1,000 - 1,199	$ 19.01	$ 4.01	$ 15.00
1,200 - 1,399	$ 23.06	$ 4.86	$ 18.20
1,400 - 1,599	$ 28.05	$ 5.83	$ 22.22
1,600 - 1,799	$ 31.60	$ 6.58	$ 25.02
1,800 - 1,999	$ 35.48	$ 7.29	$ 28.19
2,000 - 2,199	$ 38.01	$ 7.83	$ 30.18

PLUS:

BPA Residential Exchange Credit: (Residential Load Only – See Definition)
Energy (Monthly $/kWh):
All kWh @ $ (0.002133)

(continued)

Schedule No. ELDS-1

ELECTRIC LIGHTING DELIVERY SERVICE

Other Applicable Charges: All charges contained on other applicable rate schedules approved by the Public Service Commission of Montana (Commission).

APPLICATION OF RATES:

Monthly Bill Components: Each month, Customers' bills shall include an Electric Supply Charge if Customer received Electric Supply from Utility; a Transmission & Ancillary Services Charge(s); all relevant charges contained on other applicable rate schedules including, but not limited to, competitive transition charges (CTC) and universal systems benefits programs (USBC); and a Delivery Services Charge (DSC) plus the following applicable charges. Customers may be billed either entirely by the Utility, or in part by the Electric Supplier, in accordance with the Contract between the Utility and Electric Supplier, or the Electric Supplier and its Customer.

Customer-Owned Lighting Unit(s): Customer-Owned Lighting Units shall include a Monthly Billing Charge; plus an Operations Charge, if Customer has entered into an Operations Contract with the Utility; plus a Maintenance Charge, if Customer has entered into a Maintenance Contract with the Utility. The monthly charge set forth above under RATES shall apply to each Customer Service Identification Number ("Service ID"). All Customer-Owned Lighting Units shall be metered when installed or upon modification, including but not limited to conversion to LED fixtures or replacement of existing infrastructure.

Utility-Owned Lighting Unit: In addition to the Monthly Bill Components, the Utility-Owned Lighting Units shall include a Monthly Facilities Charge.

1. A. Facilities Charge: For Utility-Owned lighting units, the monthly charge shall be the product of the number of units times the applicable monthly Facilities Charge set forth above under RATES.

   B. Facilities Charge Assignment: Utility-Owned lighting units shall be assigned the applicable Facilities Charge using the Ownership Cost Ranges set forth above under RATES. Such assignment shall be based on the average installed cost of the lighting unit(s) per project.

2. Operations Charge: For Utility-Owned lighting units, or where a Customer has entered into an Operations Contract with the Utility, the monthly charge shall be the product of the number of units times the monthly Operations Charge set forth above under RATES.

Schedule No. ELDS-1

ELECTRIC LIGHTING DELIVERY SERVICE

3. Maintenance Charge: For Utility-Owned lighting units, or where a Customer has entered into a Maintenance Contract with the Utility, the monthly charge shall be the product of the number of units times the monthly Maintenance Charge set forth above under RATES.

4. Billing Charge: For Customer-Owned lighting units, the monthly charge shall be the product of the number of units times the monthly Billing Charge set forth above under RATES.

SPECIAL TERMS AND CONDITIONS:

1. Definitions:

A. BPA Residential Exchange Credit: Credit from the Bonneville Power Administration in settlement of the Residential Exchange rights of regional residential and small farm customers to benefit from the Federal Columbia River Power System per the Northwest Power Act. Applicable only to electric use that qualifies as residential load. Residential load is defined as all usual electric service used in connection with permanent or seasonal living quarters of individuals or families, domestic needs of occupants of multifamily complexes, or farm activities including incidental primary processing.

B. Electric Delivery Service: Service provided to Customer to deliver electricity through the local electric distribution wires to the Customer's point of service.

C. Electric Energy: The amount of electricity used measured in kilowatt hours (kWh).

D. Electric Supply Service: Service provided to Customer receiving electric supply either from the Utility as Electricity Supplier or a Competitive Electric Supplier.
(See also ESS-1, CESGTC-1 and ECCGP-1.)

E. Lighting System: Lighting Systems shall include all infrastructure installed to provide lighting service based on a Customer request.

F. Lighting Unit: Lighting Unit or Unit shall mean a single structure and the luminaire(s) connected to that structure.

PUBLIC SERVICE COMMISSION STATE OF MONTANA

Schedule No. ELDS-1

ELECTRIC LIGHTING DELIVERY SERVICE

2. Annual Operating Schedule:
   A. For lights that operate from dusk-to-dawn, 350 shall be used as the number of operating hours per month.

   B. For lights that operate 24 hours per day, 730.5 shall be used as the number of operating hours per month.

   C. For lights that operate throughout other periods of duration, the number of operating hours per month shall be determined by multiplying the operating hours per day times 30.44 days per month. Non-metered flashers and other lamps that operate intermittently shall be adjusted for burning hours.

3. Description of Utility-Owned Facilities:
   A. The Utility shall install, own, operate and maintain its current standard facilities which includes a pole, luminaries, mast arm, and on-off control. Where the facilities required are in excess of the Utility's standard facilities Customer shall be directly responsible for the cost of such excess facilities. Such costs shall be subject to an advance in aid of construction as provided for in SPECIAL TERMS AND CONDITION No. 9. See also SPECIAL TERMS AND CONDITION No. 5.

4. Operations* and Maintenace:
   A. Where the Utility provides operations* services on Customer-Owned lights, such services shall be billed as set forth above under RATES, provided Customer has entered into an Operations Contract with the Utility. Reasonable care and diligence shall be exercised in, replacing Lighting Units, cleaning, testing, and performing such other items of an operations* nature so as to provide continuity of illumination. It shall be the responsibility of the Customer to notify the Utility of Lighting Unit outages. Utility will make necessary repairs and replace Lighting Units within a reasonable time after notice of any outage reported by Customer. Utility shall have no independent obligation to patrol the Lighting System to determine if all lights are in operating condition at all times

   B. Where Utility experiences excessive operations* costs as a result of vandalism; malicious acts; non-standard posts, poles or luminaries; or other causes of an unusual nature, the Utility may require Customer to pay the actual costs of repairing or replacing the damaged part(s) or unit(s) including material, labor, and any applicable payroll overheads. Such charges are in addition to the monthly charges set forth above under RATES. Utility shall have no obligation to prevent or punish any persons responsible for acts of vandalism or malicious damage to its Lighting Units.

Schedule No. ELDS-1

ELECTRIC LIGHTING DELIVERY SERVICE

C. The Utility shall be responsible for supplying only standard Utility-Owned Light Units. If the Lighting Unit in need of repair is no longer available, Utility reserves the right to replace it with a comparable design selected by it.

D. * As used in this context, "operations" is intended to mean exclusively the labor and materials associated with relamping, cleaning luminaries, replacing broken or damaged Lighting Units, and minor testing of circuitry. Operations service does not include underground locating on Customer-Owned facilities. As used in this context, "maintenance" is intended to mean exclusively, the labor and materials associated with maintaining the poles, conductors, luminaries, control(s), and protective system.

5. Maintenance:
   A. Where the Utility provides maintenance* services on Customer-Owned lights, such services shall be billed as set forth above under RATES, provided Customer has entered into a Maintenance Contract with the Utility. However, Utility may refuse to maintain Customer-Owned lights which are of a unique or non-standard nature, or otherwise do not meet Utility specifications. At the Utility's option, maintenance services may also be provided on Customer-Owned lights, under separate contract, where Customer will be billed for time and materials plus appropriate overhead costs.

   B. Where Customer's lighting units or systems are such that repair or replacement parts and materials are of a unique or non-standard nature, such parts and materials shall be supplied by the Customer at Customer's expense. Under such circumstances, the Utility cannot guarantee continuity of service if Customer fails to adequately supply the necessary parts.

   C. * As used in this context, "maintenance" is intended to mean exclusively, the labor and materials associated with maintaining the poles, conductors, luminaries, control(s), and protective system.

6. Special Facilities: The Utility shall install, at its expense, only those facilities which are deemed necessary to render service in accordance with this Rate Schedule. When Customer requests facilities which are in addition to, or in substitution of, the standard facilities which the Utility would normally install, the entire installation shall be installed, owned, operated and maintained by Customer.

7. Temporary Discontinuance of Service: (Fixture remains in place.) At the request of Customer, Utility will temporarily discontinue service to individual Lighting Units, provided Customer continues to pay the applicable charges set forth above under RATES, plus the estimated cost of disconnecting and reconnecting the Lighting Unit.

Schedule No. ELDS-1

ELECTRIC LIGHTING DELIVERY SERVICE

8. Rearrangement of Facilities: Where Customer requests changes to, or rearrangement of, existing Lighting Units or Lighting Systems, such changes shall be at Customer's expense.

9. Contracts: Service to lighting installations shall be for contract terms as agreed upon between Utility and Customer within limitations prescribed by applicable law. The initial term of the contract shall commence as lighting units are energized for service.

10. Additional Terms and Conditions: In addition to the any other applicable terms and conditions contained within this Rate Schedule, service to a Lighting Unit or Lighting System shall be subject to the following additional terms and conditions:

    A. The Utility's and Customer's responsibilities under this Rate Schedule are subject to all other applicable Electric Tariff Rules approved by the Commission. If there is any conflict between Utility's Commission-approved Electric Tariff Rules and this Rate Schedule, this Rate Schedule shall control.

    B. Customer may request in writing an increase in the number of Utility-owned Lighting Units provided by Utility. If such request is made by Customer and Lighting Units are installed by Utility, Customer shall be responsible for all additional charges associated with the increased number of Lighting Units based on the charges contained in this Rate Schedule.

    C. Customer understands that Lighting Units or the Lighting Systems may not meet the Illuminating Engineering Society (IES) code.

    D. If Customer requests permanent discontinuation of service to Lighting Unit(s) or Lighting System(s), Customer shall notify Utility in writing. Upon receipt of such written request, Utility will notify Customer if there are any direct costs associated with discontinuation of service that Customer may be responsible for paying directly.

11. Surcharge on Advances or Contributions: Whenever, under the provisions of this Rate Schedule, an advance or contribution is required, the current surcharge as required by Utility operations shall be applies to such advance or contribution. This is to offset the effect caused by the Utility's delayed tax depreciation reimbursement of the current year tax on this advance or contribution. This surcharge is not applicable where advances or contributions are the result of highway relocations or any government directed relocations that benefit the public and the government is not receiving utility service.

Schedule No. ELDS-1

ELECTRIC LIGHTING DELIVERY SERVICE

12. Lighting Line Extension Allowance:
    A. Utility shall make a maximum free extension allowance of $0.05/kWh times the Utility's estimate of the annual kWh consumption for extension of primary distribution facilities up to the Lighting Unit or lighting System(s). Service drops to the Lighting Units are considered a part of the street Lighting System and are included in the street Light System costs.

    B. For Customer-Owned lights, Customers shall be required to pay the Utility for the installation of the metering and controls necessary for lighting service.

    C. For Utility-Owned lights, Customer shall be required to pay the Utility for the installation of the meter and non-standard controls necessary for lighting service.

13. Delivery Point: Delivery shall be made from the Utility's electric system, at a point or points agreeable to the Utility. Where an installation is metered, the meter shall be at a suitable location that is agreeable to the Utility.

SERVICE AND RATES SUBJECT TO COMMISSION JURISDICTION: All rates and service conditions under this Rate Schedule are governed by the rules and regulations of the Public Service Commission of Montana and are subject to revision as the Commission may duly authorize in the exercise of its jurisdiction.
