Rule No. 2

GENERAL PROVISIONS

Coverage – These service regulations cover the supplying by the Company and taking by customers of natural gas service in the State of Montana that are subject to revision from time to time after approval by the Commission, supersede all regulations by whatever term designated which may heretofore have governed the applying and taking of natural gas service.

Purpose – These service regulations are intended to define good practices which can normally be expected but are not intended to exclude other accepted standards and practices not covered herein. These are intended to assure adequate service to the public and protect the Company from unreasonable demands.

Information Available to the Public – There shall be made available to the public, at the office of the Commission and at the office of the Company, copies of these service regulations and the rate schedules, form of agreement for natural gas service and service standards of the Company.

Waiver of Regulations – In any case where compliance with any of these rules introduces unusual difficulties, such rules may be temporarily waived by the Commission upon application of the utility or the customer. If, in any case, compliance with a rule is no longer valid, such rule may be permanently set aside by the Commission.
