

# Take the **snail** out of snail mail with paperless billing and EZ Pay

The United States Postal Service has revised its service standards for certain first-class mail items, resulting in a delivery window of up to five days for some areas. This may delay your receipt of mail from us and our receipt of mail from you (including mailed payments).

With **E-bill paperless billing**, you never have to wait for your bill. You'll receive an email every month letting you know your NorthWestern Energy bill is available online. To sign up, visit My Energy Account at [myaccount.northwesternenergy.com](http://myaccount.northwesternenergy.com).

Enroll in our free **EZ Pay program** to make sure your bill payment is never delayed. With EZ Pay, your payment is debited directly from your checking or savings account. Set up automatic payments in My Energy Account at [myaccount.northwesternenergy.com](http://myaccount.northwesternenergy.com).

For a list of all payment options, visit [NorthWesternEnergy.com/paymybill](http://NorthWesternEnergy.com/paymybill)
